

SB, Type plate product number, K770, K970, K1270, 2023-11

SYMPTOM/DESCRIPTION

In order to improve the flexibility of our production lines, the type plate on the petrol power cutters now only shows the product model, not the complete product variant. All PNC numbers on petrol Power cutter type plates will now end with -00. The first seven digits will still reflect which product model it is.

The complete variant PNC will be printed on the packaging label.

Note: This is only for Petrol Power Cutters. Other power cutters are not affected.

See figure 1 and 2 below for examples regarding Petrol Power Cutter K 770 14”:

- PNC: 967682101 (printed on the packaging label, figure 2)
- Type plate: 967682100 (on the Petrol Power Cutter, figure 1)

Fig. 1: Product model PNC on the type plate.

Fig. 2: Complete product variant PNC on the packaging label.

AFFECTED UNITS

Implemented on petrol power cutters November 2022.

CORRECTIVE ACTION

No action required. The complete PNC is written on the packaging label.
