

SB, Update information, K770 II, 2026-03

SYMPTOM/DESCRIPTION

K 770 II, a new updated version of the K 770, has been launched. **The carburettor and cylinder assembly on this K 770 II differ from those used on previous models (NOT backwards compatible).** The purpose of this Service Bulletin is to clarify the compatibility of parts based on the respective machine models.

No action is required for existing K 770 machines currently in the market, and all corresponding parts, including carburettor and cylinder assembly, will remain available.

It is essential to verify the model/article number on the type plate prior to changing the cylinder or carburettor. The model and product article numbers are listed below and refer to corresponding Parts Information further below.

PARTS INFORMATION

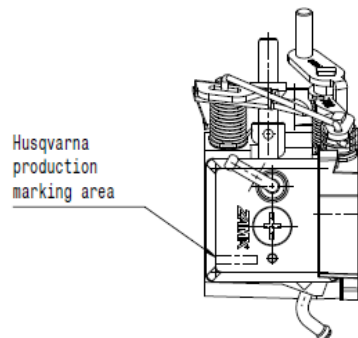

Part Name	K 770 all current models Part No.	K 770 II Part No.
CARBURETTOR	596875601	596875603
CYLINDER ASSY	581476104	581476105
CRANKCASE KIT	593282510	593282512

The carburettor used on the K 770 II (part number 596 87 56-03) will feature a green identification marking. This marking is intended to distinguish the adjusted carburettor installed on the K 770 II from the carburettor used on the existing K 770 models, which does not carry this marking.

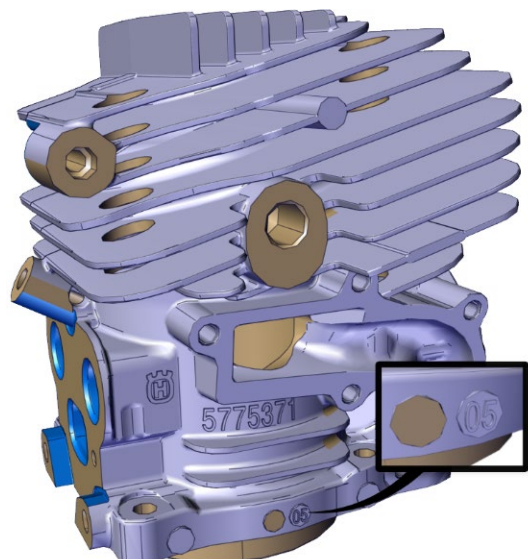

Color: green
Thickness: 1.5mm min.
Length of marking: 5mm min.

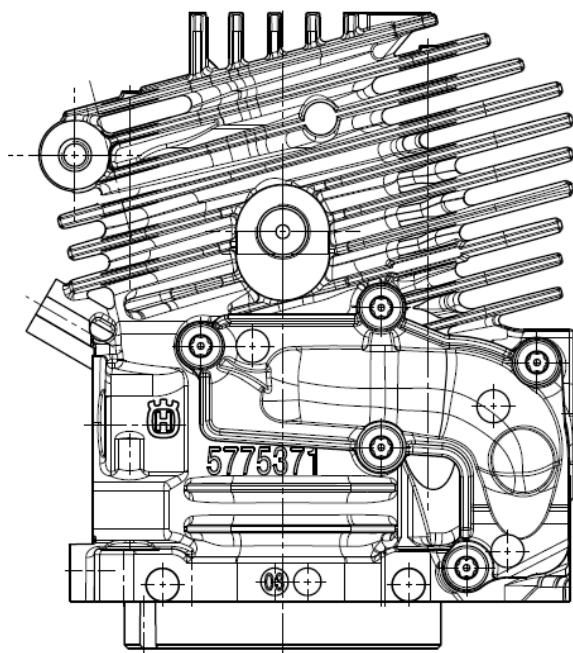

Marking applied in area according to view below:

The new **K 770 II Cylinder Assembly (Part No. 581476105)** will bear the marking **“05”** to distinguish it from the existing **K770 Cylinder Assembly (Part No. 581476104)**, which will instead bear the marking **“03”**.
