

FEATURES

POWERFUL HONDA ENGINE

Equipped with a 3.5HP Honda GX120 engine, known for its reliability, fuel efficiency, and easy starting.

HIGH FLOW RATE

Capable of moving up to 164 gallons per minute, making it ideal for large-scale water removal tasks.

DURABLE CONSTRUCTION

Built with a rugged aluminum housing and cast iron volute, to withstand harsh environments.

QUICK START-UP

The Honda engine's automatic decompression system allows for quick and easy starts every time.

Specifications

Engine	3.5 HP (2.6kW)
Displacement	118 cc
Maximum RPM	3,600 RPM
Diameter of Input/Output	2x 2 in.
Nominal Flow	164 GPM
Nominal Elevation	104 ft.
Suction	26 ft.
Oil Capacity	0.59 US qt
Gross Weight	46 lbs.
Package Dimensions	20.9" L x 15.2" W x 17.7" H

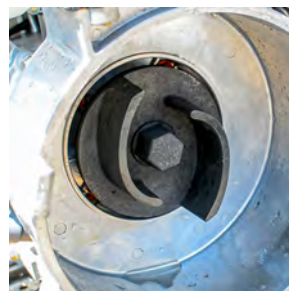

HONDA ENGINE

Honda GX engines are renowned for their reliability and performance.

PUMP 164 GPM

Tomahawk pumps effortlessly move liquids up to 89 ft. at an astounding rate of 375 GPM!
