

Specifications

Engine	13 HP (9.5kW)
Displacement	389 cc
Maximum RPM	3,600 RPM
Diameter of Input/Output	4 x 4 in.
Nominal Flow	423 GPM
Nominal Elevation	82 ft.
Suction	26 ft.
Oil Capacity	1.16 US qt
Gross Weight	148 lbs.
Package Dimensions	28.9" L x 21.1" W x 22.2" H

FEATURES

POWERFUL HONDA ENGINE

Equipped with a trusted GX390 Honda engine delivers unmatched performance, ensuring minimal downtime.

HIGH CAPACITY

Pumps up to 25,380 gallons per hour with a 4-inch suction/discharge hose for efficient water transfer.

EASY PORTABILITY

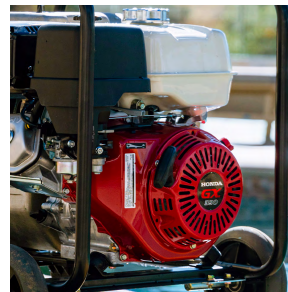

Compact design with a sturdy steel frame allows for easy transport and storage.

4" TRASH PUMP

Capable of handling solids up to 2" for effective trash and debris-laden water removal.

AUTOMATIC LOW OIL SHUTDOWN

Protects the engine from damage by automatically shutting down when oil levels are low!

POWERFUL DEWATERING

Move water efficiently in demanding job site conditions with this high-performance pump.

QUICK PRIMING

Equipped with a quick priming feature, this pump gets to work fast, minimizing downtime.

CAST IRON VOLUTE

Perfect for floodwater, slurry, and any job requiring heavy water displacement.

3 YEAR WARRANTY

Reliability you can trust, with first year of use is supported by our technicians.

RUGGED PUMPING POWER

Experience superior performance and reliability with the Tomahawk 13 HP 4" Industrial Duty Trash Water Pump, powered by the trusted Honda GX Series engine. Designed for heavy-duty dewatering tasks, this portable utility pump is perfect for contractors and professionals needing to handle large volumes of water quickly!
