Rugged construction for
tough job site conditions.

1 YEAR WARRANTY
Your first year of use is
supported by our technicians.

FEATURES

HIGH-FLOW VACUUM TECHNOLOGY – Generates a strong, continuous air stream that maximizes suction force, allowing you to securely lift and hold heavy materials with ease!

440 LB LIFTING CAPACITY – Securely lift concrete, stone, porcelain, and large-format pavers with ease (440lb pad sold separately).

QUICK-CHANGE PADS – Swap suction pads in seconds to match various material sizes

EASY ON/OFF CONTROLS – Toggle vacuum flow and release at the touch of a button.

DUAL PADS – Includes to Paver Pads interchangeable pads.

TIME-SAVING EFFICIENCY
Greatly reduces install time
for pavers and slabs.

LIGHTWEIGHT & PORTABLE
40 lbs for easy transport
between job sites.

LIFT SMARTER, NOT HARDER

Tomahawk Vacuum Lifters take the strain off your crew, making it easy to lift and place heavy pavers, slabs, and stone with total control. No more busted backs, slow installs, or uneven placements. Because when your job depends on precision and speed, the right lift makes all the difference.
